

## **LETTER OF RECOMMENDATION**

It is my pleasure to recommend Mr. Parthiv Moradiya for admission to your esteemed university. Parthiv is an undergraduate student currently in the 7th semester in the Department of Artificial Intelligence and Data Science at Sarvajanik University. I have known him since his third semester in both theory and lab settings.

Parthiv is among the brightest students in the department. He is highly motivated and goal-oriented and possesses an energetic personality coupled with remarkable creativity. I have taught him several subjects, including "Design and Analysis of Algorithms," "Search Algorithms in Artificial Intelligence," "Data Mining and Business Intelligence," "Knowledge Representation and Reasoning," and "Reinforcement Learning." His grades consistently placed him among the top students in the class.

Parthiv has shown a remarkable dedication to his technical studies, which highlights his strong aptitude and genuine passion for learning. An excellent programmer in his class, he demonstrates strong problem-solving skills and often helps classmates with program-related errors during lab sessions. He excels at turning theoretical concepts into practical solutions and applies his knowledge effectively in real-world situations, showing a solid grasp of fundamental concepts and a keen interest in staying current with advancements in his field. His communication skills are evident in his reports, presentations, viva, seminars, and technical fests. Beyond academics, he has also actively participated in numerous extracurricular activities like debate competitions, quiz competitions, sports activities, and many others.

I am confident he will thrive at your institution and meet all expectations. Therefore, without hesitation, I strongly recommend Parthiv Moradiya for admission; certain he will be an asset and contribute positively to your academic community.

Sincerely,

Prof. Mukesh Patel  
Assistant Professor  
Department of Information Technology  
Sarvajanik College of Engineering and Technology
